

## MISSION

**“Quality Catholic Education in a Spirit of Joy”**

## PHILOSOPHY

Saint Francis School sponsored by the Sisters of Saint Francis of the Neumann Communities, strives to provide academic excellence in a Christian context for young women and men. The school does not discriminate based on ethnicity, religion, sex, or socioeconomic status. In keeping with the Franciscan mission to the poor, Saint Francis offers an affordable, quality, Catholic education to all.

Saint Francis School endeavors to develop each student spiritually, academically, physically, emotionally, and socially. The combined efforts of the family, Church, school, community, and society are vital to gospel living and achieving fulfillment of the whole person. The school’s chief task is to cultivate faculties which the student can use together with others towards the attainment of a common dignity for all.

The school accomplishes its objectives through a liberal arts education where students are encouraged to inspire, explore, and discuss ideas in search of truths, both religious and secular. This search sets the foundation for an informed, responsible, active, and contributing member of the Church and the global community.
