The Seminar will support a successful transition into Saint Francis High School. This course will develop 21st century learning skills, such as critical thinking, managing time, and interaction with technology, organizational skills and many more. It will also nurture strong relationships among peers as well as encourage them to develop a necessary support system for achieving their personal best in high school and beyond. The Seminar is a mandatory course for all incoming 9th graders. **Only one (1) session is required.**

#### **SAT Prep - Reading and Writing - Grades 9-12** (*½ English credit*)

## **MIDDLE SCHOOL COURSES**

### **Math Prep (Grades 7-8)**

Transitioning into the next grade level in Middle School can be quite challenging for some students. This course is designed to review important topics to prepare your child for **Pre-Algebra** or **Algebra** next year. We will be revisiting critical topics that students normally struggle with and will better prepare them to be successful in the middle school. Topics include: Adding and subtracting integers, memorizing formulas, fractions, decimals and percent, among many other topics notorious for hampering progress. This course will help your child be more confident entering middle school math.

### **Writer's Workshop (Grades 7-8)**

The Writer's Workshop will enable students to acquire the necessary skills for both writing and communicating in an efficient manner. The workshop will teach the students to write effectively, read critically, and express themselves in a comprehensible fashion. They will be taught how to write a well-organized paper in a timely manner, and they will work on improving their ability to edit documents. The students will participate in group workshops, where they will edit their work and learn from their peers. Presentations will also be incorporated within this workshop, so the students will be able to understand the art of communication as a whole.
